

UDBHAV

The Inter IIT Hackathon

Organized by
IIIT Sri City's ENIGMA

ABOUT IIITS

The Indian Institutes of Information Technology (IIITs) are premier institutions dedicated to advancing education and research in computer science, electronics, and information technology.

Designed with a future-ready mindset, the IIIT curriculum is regularly updated to include emerging fields such as Artificial Intelligence, Machine Learning, Internet of Things (IoT), Blockchain, Data Science, and Cybersecurity.

With about 30 IIITs in almost every state in India , including major cities like Bangalore , Delhi , Pune , Allahabad, Chennai , etc . IIITs are highly technical since almost all the IIITs have only CSE, ECE and Data Science and AI as their main branches.

ABOUT UDBHAV

UDBHAV is India's First Inter IIIT Hackathon, which is an open hackathon to involve all domains of the ever-growing IT World. The teams from different IIITs can choose their respective domains and problem statements, allowing their best form to come out to the world.

The Inter IIIT Hackathon will be held and will consist of 3 rounds.

Flow of the Event

Start

Organizers give a set of domains to choose from

Other Institutes choose domains which they will conduct the first round on
